Happy New Year Marianne and Hanady!

You clearly have done a lot of work preparing these materials - wow!

Have the press release and the web content been shared with OEA? Just wondering where these two public pieces are in the review process. HQ doesn't generally issue such detailed press releases but regional releases may be a bit different.

Thanks and it seems that we're getting closer ☺

Subject: Bristol Bay communications materials--final opportunity to comment

Hello everyone,

Im including all the latest communications materials for folks to weigh in on one last round.

I trimmed the press release a bit it is too long at two pages. Youll notice the bulleted list is shorter. We have to keep the press release readable and a reasonable length. If people want details, there is plenty on the web site.

Which is a good segue to the web contentI need to send it to Charles ASAP. Charles suggested that the box comment period closedcould contain something more meaningful. How about we list some of the key revisions to the assessment and link to the relevant appendices? Thats my suggestion. Any other ideas?

I need final revisions by COB Friday. Thanks!

Hanady
